

SPONTAINE

Decision Intelligence
For the AI Age.

SPONTAINE

**We refine data goldmines
and unlock transformative
potential.**

Spontaine unifies disjointed data,
converting it into deep insights that
drive action.

Data Fluidity

Driving Business Value

Harvest & Blend Data

Integrate at source at scale to build a strong data foundation.

- Multi-source ingestion
- Schedule and forget
- Homogenized data foundation

Native AI Business Context

Build auto-updating, natively AI ready datasets

- Composite AI
- Context-based ML
- NLP - Chat exploration
- System generated strategic insights

Deep-dive, Autopilot Ops

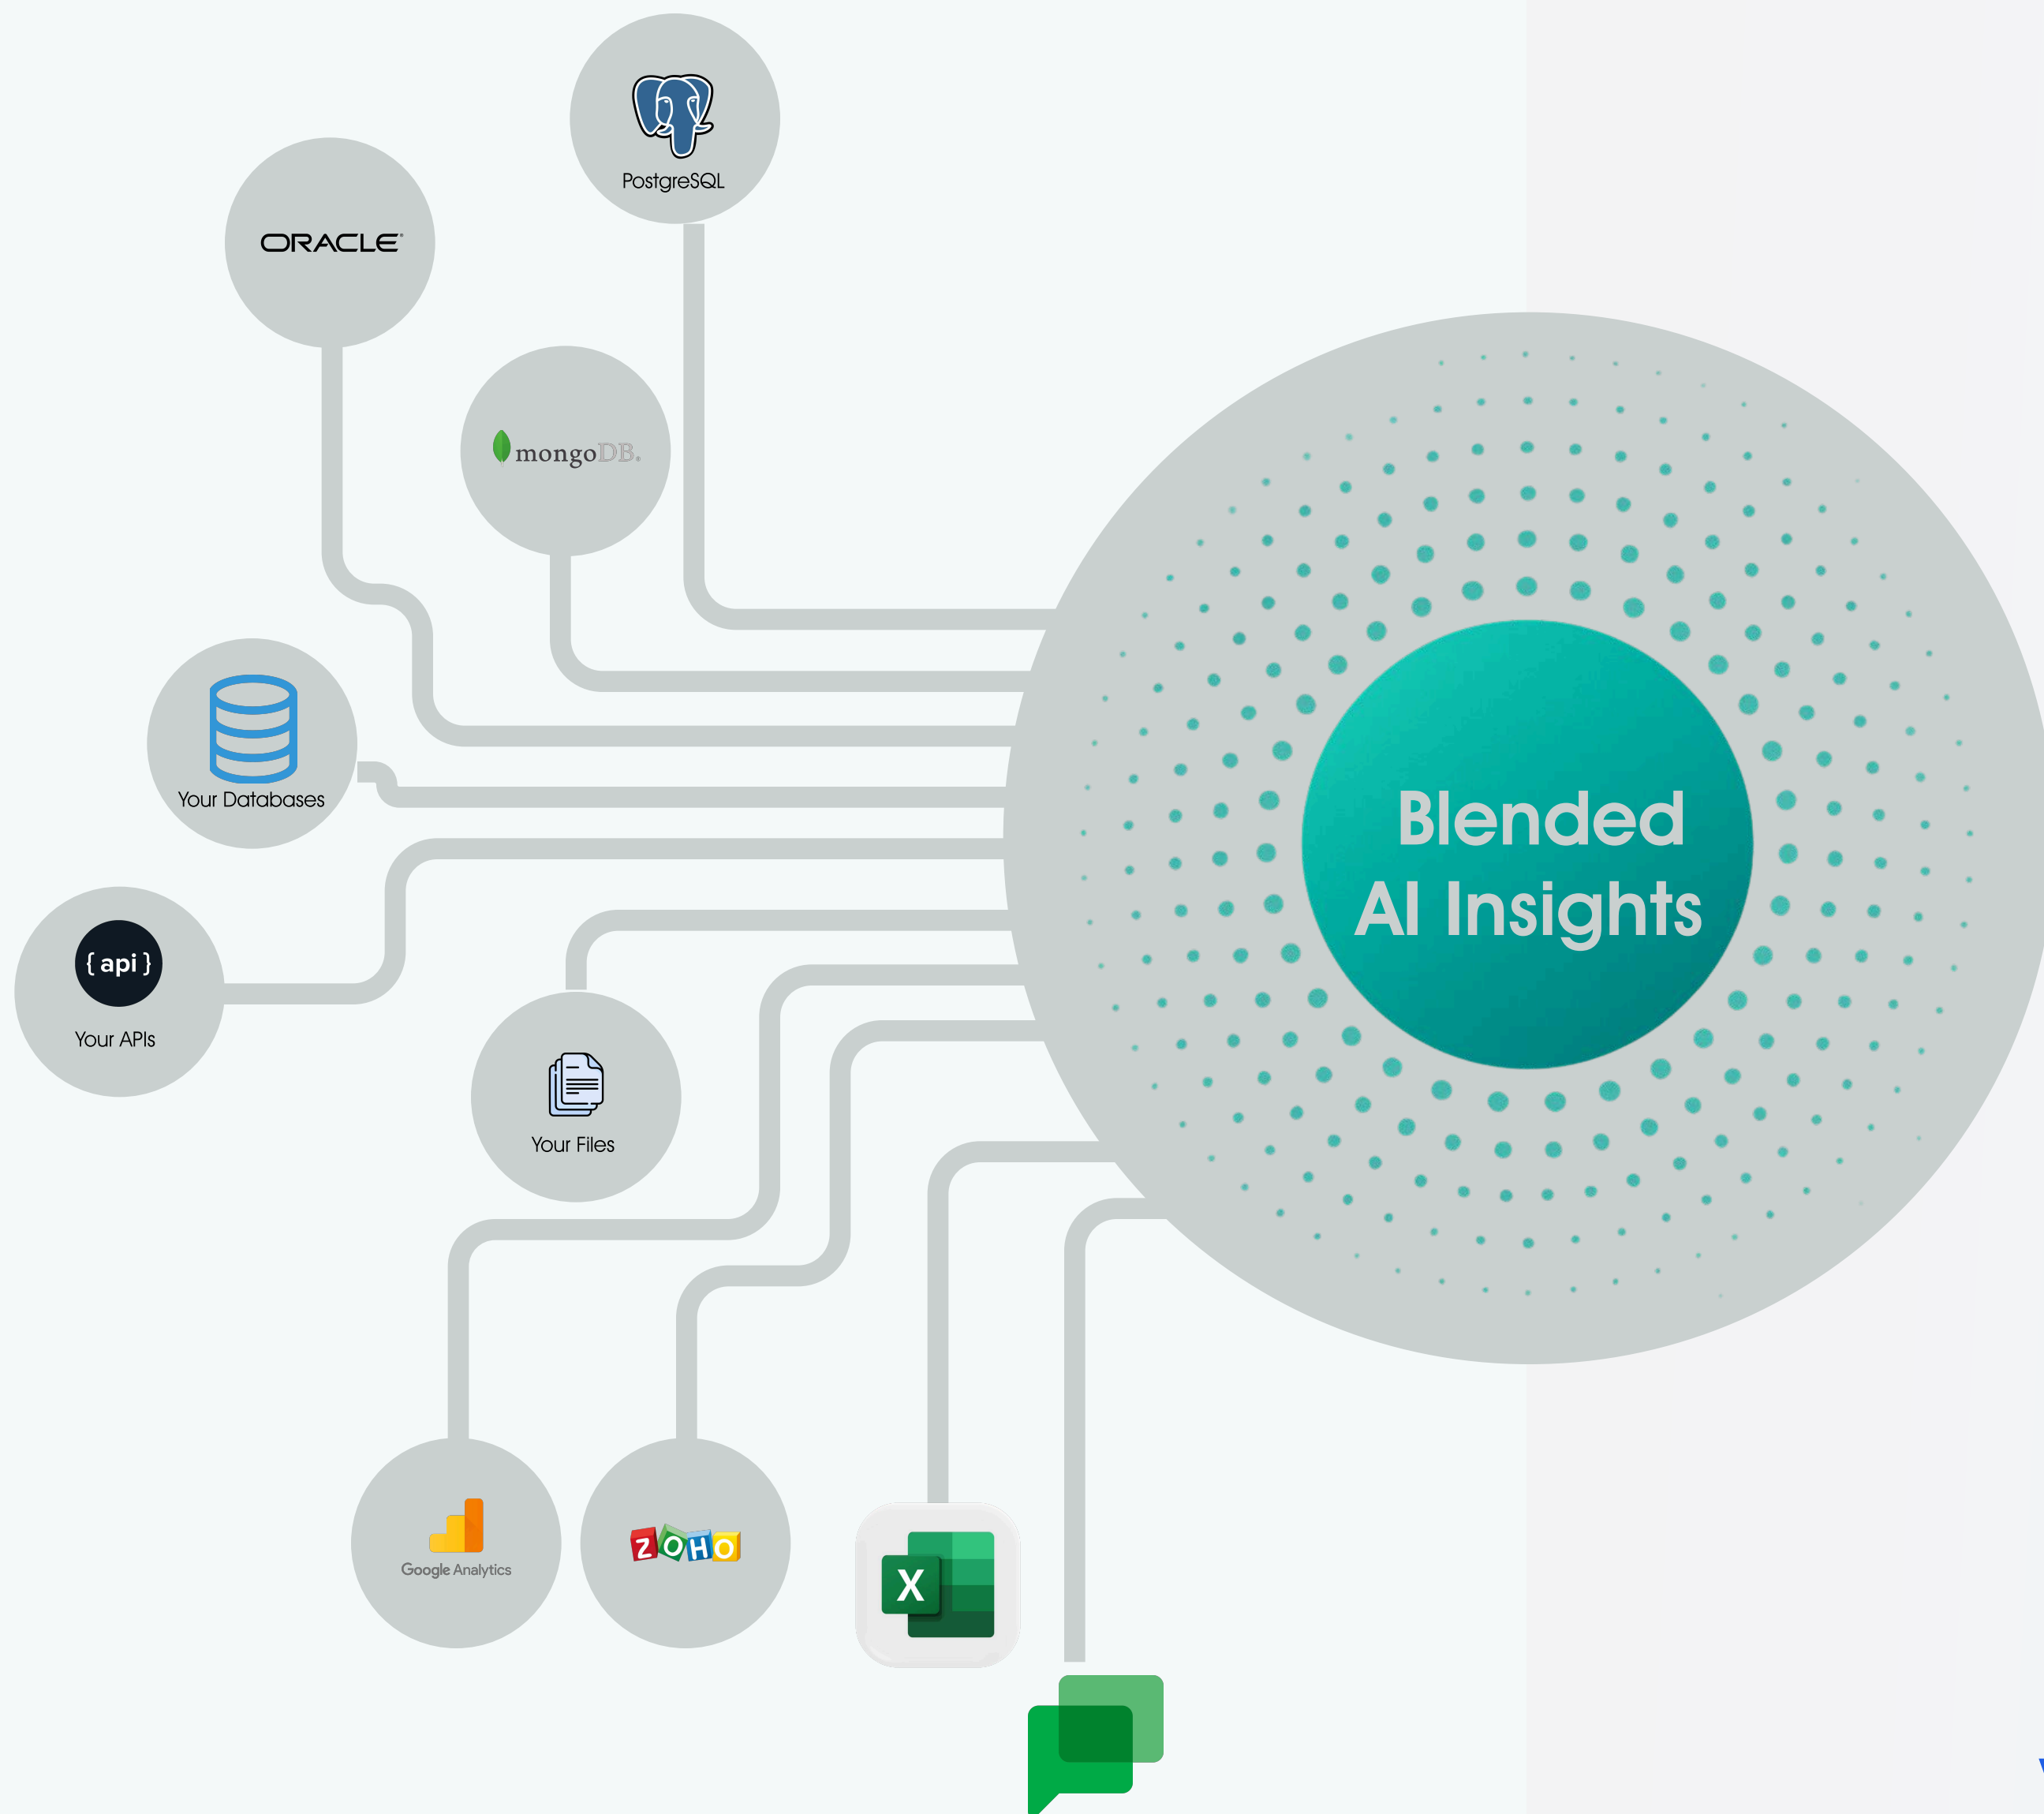

Clean, interactive dashboards built by business users

- No-code builder
- Automatic sync
- Immersive exploration
- Autopilot target tracking
- Nudge-messaging loops

A World-Class Team

Bala Murali
CEO
(Product & Strategy)

A 20-year enterprise product leader who bridges the gap between boardroom strategy and ground-level execution.

- **Co-founded XOCORTX:** Built a profitable, high-impact systems lab from the ground up, delivering complex data platforms to demanding government and enterprise clients.
- **Deep C-Suite Access:** A trusted advisor to business leaders (via direct involvement in advanced manufacturing and as a consultant at Stanford Seed), he is intimately familiar with the pain of data fragmentation and the challenge of making timely, informed decisions.

At Spontaine, Bala drives the vision and capital-efficient GTM, ensuring the product solves the most painful, high-value problems for business leaders and their partners.

Data Analyst

Swaraj Krishnan
CTO
(System Architecture, Scale)

The full-stack architect who ensures visionary ideas become robust, scalable, enterprise-grade reality.

- The Technical Backbone of XOCORTX: For 7 years, worked in lockstep with Bala to rapidly architect and build secure, high-performance platforms at hyper-speed.
- Obsessed with Scalability & Performance: A specialist in designing systems that handle complex data loads with elegance and efficiency, ensuring the platform is built for enterprise-grade deployment from day one.

At Spontaine, Swaraj leads the evolution of the core architecture, from the proprietary AI Semantic Layer to the future-proof Infinity Ingestion Platform, guaranteeing our technical moat

Full-stack Developers

Radhika Ravindran
COO
(Team & Delivery)

The operational engine who transforms ambitious sales promises into flawless customer reality.

- Drove XOCORTX's Success: Instrumental in the operational delivery and profitability of XOCORTX, managing large-scale, complex rollouts and ensuring demanding clients became successful long-term partners.
- Master of Execution: An expert in driving technology adoption across complex organizations, navigating stakeholders and ensuring customers achieve quantifiable value at speed.

At Spontaine, Radhika owns the entire customer journey from onboarding to operational excellence, guaranteeing a world-class experience that drives adoption and revenue expansion.
